

**RICARDO M. HOLDO**  
**Curriculum Vitae**

**ACADEMIC HISTORY**

**Academic Positions**

2023-present *Professor*, Odum School of Ecology, University of Georgia.  
2016-2023 *Associate Professor*, Odum School of Ecology, University of Georgia.  
2013-present *Honorary Researcher*, Animal, Plant and Environmental Sciences, University of the Witwatersrand, South Africa.  
2010-2016 *Assistant Professor*, Division of Biological Sciences, University of Missouri.  
2005-2010 *Postdoctoral Associate*, Department of Biology, University of Florida.

**Education**

2005 Ph.D. in Ecology and Evolutionary Biology. Princeton University, Princeton, NJ.  
1999 M.S. in Zoology. University of Florida, Gainesville, FL.  
1994 B.A. in Organismic and Evolutionary Biology. Harvard College, Cambridge, MA.

**Postgraduate awards**

2016-2019 Odum Chair, Odum School of Ecology, University of Georgia.  
2008 University of Toronto EEB Postdoctoral Fellowship (declined).

**INSTRUCTION**

**Courses Taught (in reverse chronological order)**

Course	Title	Term	Effort (%)	Credit hours	Enrollment
ECOL 8000	Introduction to the practice of Ecology	Fall 2024	20	4	16
ECOL 8990	Introduction to R	Spring 2024	20	1	12
ECOL 3500	General Ecology	Spring 2024	100	3	92
FYOS 1001	Plant Intelligence: Fact or Fiction?	Fall 2023	100	1	15
ECOL 8990	Statistical Modeling in R	Fall 2023	100	3	4
ECOL 8990	Ecological Modeling	Fall 2022	100	2	4
ECOL 3510	Study abroad: African savanna ecology	Maymester 2022	50	3	10
ECOL 3480	Savanna Ecology	Spring 2022	50	1	16
ECOL 3500	General Ecology	Spring 2022	50	3	136
ECOL 8990	Statistical Modeling in R	Fall 2021	100	3	16
ECOL 3480	Savanna Ecology	Spring 2021	100	1	6
ECOL 8020L	Research Modeling	Fall 2020	100	3	5

ECOL 3500	General Ecology	Spring 2020	50	3	113
ECOL 8910	Statistical Modeling in R	Fall 2019	100	3	15
ECOL 8000	Introduction to the practice of Ecology	Fall 2019	20	3	10
ECOL 4950	Senior Seminar	Spring 2019	50	1	28
ECOL 8020L	Research Modeling	Fall 2018	100	3	7
ECOL 8000	Introduction to the practice of Ecology	Fall 2018	20	3	14
ECOL 3500	General Ecology	Spring 2018	50	3	105
ECOL 8990	Statistical Modeling in R	Fall 2017	100	3	8
ECOL 8000	Introduction to the practice of Ecology	Fall 2017	20	3	16
ECOL 4950	Senior Seminar	Spring 2017	100	1	16

*Summary of courses taught as Assistant Professor at University of Missouri*

Course	Title (times taught)	Term(s)	Effort (%)	Credit hours	Enrollment
BioSci 8002	Dynamic Models in Ecology and Behavior (2)	Spring 2011, 2016	100	3	8-9
BioSci 3650	General Ecology (1)	Fall 2014	100	3	116
BioSci 4994	Models in Population Biology (2)	Spring 2012, 2014	100	3	12-16
BioSci 8002	Statistical Modeling in Biology (3)	Fall 2012, 2013, 2015	100	3	12-20

**Development of new courses and teaching modules**

*General Ecology* (ECOL 3500), Spring 2024. Developed Rshiny applications to allow students to explore the behavior of simple models of population dynamics and population genetics.

*Introduction to R* (ECOL 8990), Spring 2024. Developed a module on the basics of the R language, including packages, functions, data types, dataframes and tibbles, operation vectorization, basic syntax, best coding practices and debugging.

*Study Abroad: African Savanna Ecology* (ECOL 3510), Maymester 2022. New two-week field course on the ecology of savanna ecosystems, based in South Africa. The course combined lectures, field work, field trips, and student-led research. The first week of the course focused on the development, execution, analysis and presentation of group research projects in savanna ecology. The second week (in Kruger National Park) focused on themes such as biome shifts, landscape ecology, climate change and plant-water relations, plant-animal interactions and fire ecology. Co-taught with Jason Donaldson.

*Statistical Modeling in R* (ECOL 8910/8990), Fall 2017. Modified my statistical modeling course for biologists to have specific relevance to ecologists. The course has also shifted from a heavy reliance on lectures towards hands-on in-class exercises using various datasets. The same datasets are revisited repeatedly to allow incorporation of increasingly complex analysis methods.

*Savanna Ecology* (ECOL 3480), Spring 2021 and 2022. New course. This class was developed in Spring 2021 as a pre-requisite for a Maymester field course to take place in South Africa (cancelled in May 2021 due to COVID-19, moved to May 2022). The course combines lectures and paper discussions and introduces students to key concepts in the field (e.g., tree-grass dynamics, herbivory, and fire ecology). Co-taught with Jason Donaldson in 2022.

*Introduction to the practice of Ecology* (ECOL 8000), Fall 2017. New module. A three-week module (offered three times) focused on principles of community assembly and inferring process from pattern. The course combined a small amount of lecturing with paper discussions and group exercises.

*Research Modeling* (ECOL 8020L), Fall 2020. In response to a request for online instruction by all enrolled students, the course was modified to rely on daily worksheets focusing on modeling problems (parameter estimation, model construction, model validation, etc.).

*Statistical Modeling in R* and *Dynamic Models in Ecology and Behavior* (now *Research Modeling*) were both originally developed by me as new courses at the University of Missouri in Fall 2012 and Spring 2011, respectively.

### **Other courses taught**

*Models and Data Workshop*, Sokoine University of Agriculture, Arusha, Tanzania. This workshop combined a field data module (taught by T. Michael Anderson of Wake Forest) with a data analysis and statistics module taught by me. The workshop was attended by 19 Tanzanian graduate students and administrators from a range of institutions and government agencies. The purpose of the course was to strengthen computing (using R as a platform) and data visualization and analysis skills in Tanzania. July 2012.

### **Supervision of Graduate Student Research**

Griswold, V. MS Ecology, Odum School. 2024-present. Thesis topic: the role of competition and plant-soil feedbacks on the performance of *Rhododendron carolinianum*.

Gonzalez, M. MS Ecology, Odum School. 2024-present. Thesis topic: the role of deep soil moisture on pre-rain greenup in African savannas.

Senso, B. MS Ecology, Odum School. 2024-present. Thesis topic: drivers of lungworm and gastrointestinal nematode infection in Serengeti ungulates.

Wargowsky, I. MS Ecology, Odum School. 2021-2022. Thesis topic: Implications of root anatomical differences between savanna trees and grasses.

Judge, P. MS Ecology, Odum School. 2020-2022. Thesis topic: Effects of hydraulic redistribution on plant communities in long-leaf pine savanna.

Working, C. MS Ecology (co-advised with V. Ezenwa), Odum School. 2018-2021. Transferred to Warnell School of Forestry in Spring 2021 (graduated). Current position: Army Corp of Engineers, Sacramento, CA.

Belovitch, M. PhD Candidate Ecology, Odum School. 2018-2024. Thesis topic: Hydraulic constraints in C<sub>4</sub> grasses and C<sub>3</sub> trees in an African savanna. Current position: research scientist for LI-COR Biosciences.

Rowland, F. PhD Biological Sciences, University of Missouri (co-advised with R. Semlitsch). 2013-2018. Thesis: Dynamics and regulation of pond food webs. Current position: United States Geological Survey, Columbia, MO.

Ketter, B. MS Biological Sciences, University of Missouri. 2014-2016. Thesis: Morphological and physiological responses of two savanna tree species to grass competition. Current position: private health-care sector.

Godwin, D. PhD Biological Sciences, University of Missouri. 2011-2015. Thesis: Fire behavior and impacts across rainfall gradients in temperate and tropical savannas. Current position: Wildfire Analyst with the Center for Environmental Management of Military Lands, Fort Collins, CO.

Rugemalila, D. MS Biological Sciences, University of Missouri. 2013-2015. Thesis: Mechanisms of tree seed limitation across a rainfall gradient in Serengeti National Park, Tanzania. Current position: Ph.D. student, Wake Forest University, Winston-Salem, NC.

Arnold, S.G. MS Biological Sciences, University of Missouri. 2010-2012. Thesis: Structure and composition of plant communities on grazing lawns in Kruger National Park, South Africa. Current position: The Mountaineers (conservation nonprofit), Seattle, WA.

### **Graduate Student Advisory Committee Membership**

Brown, C. PhD. Odum School, ongoing. Major advisor: Jackie Mohan.

Novak, L. PhD. Plant Biology, ongoing. Major advisor: Anny Chung.

Cryan, D. PhD. Odum School, ongoing. Major advisor: Craig Osenberg.

Rack, L. PhD. Odum School, ongoing. Major advisor: Mary Freeman.

Noble, S. PhD. Division of Biology, Kansas State University, completed 2024. Major advisor: Zak Ratajczak.

Taylor, M. PhD. Odum School, completed 2024. Major advisor: Nina Wurzburger.

Ramirez Quintero, L. PhD. Warnell School of Forestry, completed 2023. Major advisor: Cristian Montes.

Briggs, A. PhD. Odum School, completed 2022. Major advisor: Craig Osenberg.

Arnold, K. PhD. Odum School, completed 2022. Major advisor: Nicole Gottdenker.

Park, R. MS. Odum School, completed 2022. Major advisor: Jackie Mohan.

Henderson, S. MS. Warnell School of Forestry, completed 2022. Major advisor: Doug Aubrey.

Kim, C. PhD. Department of Horticulture, completed 2022. Major adviser: Marc Iersel.

Ottinger, S. MS. Odum School, completed 2021. Major advisor: Nina Wurzburger.

Kenna, A. MS, completed 2020. Odum School. Major advisor: Jackie Mohan.

Teitelbaum, C. PhD, completed 2021. Odum School. Major advisors: Sonia Altizer and Richard Hall.

Evans, M. PhD, completed 2020. Major advisors: John Drake and Courtney Murdock.

Michael Belovitch, MS, completed 2018. Warnell School of Forestry. Major adviser: Doug Aubrey.

Elise Krueger, MS, 2017. Odum School. Major adviser: Ford Ballantyne.

### ***Summary of committee memberships at University of Missouri***

I was a member of 7 MS and 12 PhD committees at the University of Missouri between 2010 and 2016.

### **Supervision of Undergraduate Research**

Kelly, G. 2024-present. Odum School. Research topic: Effects of grasses on spatiotemporal patterns of tree seedling root architecture.

Slater, S. 2023-present. Odum School. Research topic: Deep transport in savanna trees and grasses.

Wargowsky, I. 2017-2021. Odum School. Research topic: Rooting architecture and vessel architecture of savanna trees and grasses. Currently a Double Dawgs graduate student in my lab.

Gajjar, N. 2018-2022. Odum School. Thesis topic: Ecohydrological traits in African savanna tree and grass species.

Barr, A. 2018-2019. Odum School. Senior honors thesis topic: Herbivore habitat use in woodland-grassland transitions.

Lenz, L. 2019. Odum School. Apprenticeship in Ecology student. Study topic: using camera-trap imagery to map the Serengeti migration.

Eden, J. 2019. Odum School. Apprenticeship in Ecology student. Study topic: morphology of fine roots in savanna trees and grasses.

Amerson, B. 2018. Odum School. Student research assistant. Topic: morphology of fine roots in savanna trees and grasses.

Saracino, M. University of Missouri. Determinants of woody invasion in prairie communities.

McHargue, W. University of Missouri. Plant thermal imaging as a tool for quantifying transpiration.

Campbell, T. University of Missouri. Analysis of herbivore community patterns in Serengeti National Park.

Roach, R. R. University of Missouri. Developing algorithms for extracting tree cover spatial patterns from Google Earth imagery.

Dismukes, W. University of Missouri. Wade took independent study with me to learn modeling tools. He completed a research project on the use of imaging tools for quantifying plant growth.

Miller, E. University of Missouri. Data extraction and analysis of game camera data.

Osterholz, Z. University of Missouri. REU student (University of Notre Dame): Ecology of plant-fire interactions in Serengeti National Park.

Mollman, M. University of Missouri. Discovery Fellow: Inferring rooting distributions and water use strategies in key savanna tree species.

Brocato, E. University of Missouri. Honors College intern. Inferring mechanisms of tree-grass competition using a greenhouse experiment.

### **Postdocs supervised**

Donaldson, J. 2021-present. Odum School. Research topic: The role of animal movement on disease dynamics in Serengeti.

Gaughan, A. 2011-2012. University of Missouri. Research topic: New algorithms for quantifying savanna tree cover, size structure, and composition using composite satellite imagery. Current position: Associate Professor, Department of Geography and Geosciences, University of Louisville.

Morris, T. 2014-15. University of Missouri. Research topic: Resprouting dynamics and resource allocation in savanna trees across a rainfall gradient in Kruger National Park, South Africa. Co-mentored with Michelle Mack, Northern Arizona University. Current position: data scientist, South Africa.

### **Instructional grants**

NSF STEM Fellows: "ShowMe Nature from elements to ecosystems." 2010-2015. Role: faculty participant. PI: Candace Galen.

## Trainee recognitions and achievements

- Gajjar, N. 2021. Best poster, Graduate Student Symposium, Odum School.
- Wargowsky, I. 2020. Honors International Scholars Program, UGA.
- Wargowsky, I. 2019. Art of STEM competition – special merit award. 2019.
- Rowland, F. 2019. Donnelley Postdoctoral Fellow, Yale University.
- Rowland, F. 2016. Ethel Sue Lumb Award for Excellence in Graduate Studies, University of Missouri.
- Rugemalila, D. 2016. The Peter Ashton Prize for the outstanding paper published by a student in *Biotropica*.
- Arnold, S. 2014. Thesis paper selected as Editor's choice in July 2014 issue of *Biotropica*.

## SCHOLARLY ACTIVITIES

In the field of ecology, lead and senior authors typically appear in first and last position, respectively. Unless otherwise stated, all works are peer-reviewed. I highlight work by undergraduate and **graduate student** co-authors working under my supervision using underlining and in bold face type, respectively.

### Book chapters

- Holdo, R.M., and Holt, R.D. 2015. The Serengeti coupled human-natural system: socio-ecological feedbacks, dynamics, and resilience. Chapter 19 in *Serengeti IV: Sustaining biodiversity in a coupled human-natural system*. Sinclair, A.R.E., Mduma, S.A.R., and Packer, C. (eds.). Chicago University Press.
- Eby, S., Holdo, R.M., Metzger, K., and Dempewolf, J. 2015. Structural, functional and biodiversity consequences of fire in the Serengeti. Chapter 4 in *Serengeti IV: Sustaining biodiversity in a coupled human-natural system*. Sinclair, A.R.E., Mduma, S.A.R., and Packer, C. (eds.). Chicago University Press.
- Hopcraft, J.G.C., Holdo, R.M., Mwangomo, E., Mduma, S., Thirgood, S., Borner, M., Fryxell, J.M., Olff, H. and Sinclair, A.R.E. 2015. Why are wildebeest the most abundant herbivore in the Serengeti ecosystem? Chapter 15 in *Serengeti IV: Sustaining biodiversity in a coupled human-natural system*. Sinclair, A.R.E., Mduma, S.A.R., and Packer, C. (eds.). Chicago University Press.
- Holdo, R.M., Holt, R.D., Sinclair, A.R.E., Godley, B., and Thirgood, S. 2011. Migration impacts on communities and ecosystems: empirical evidence and theoretical insights. Chapter 9 in *Animal Migration: a Synthesis*. Milner-Gulland, E.J., Fryxell, J.M., and Sinclair, A.R.E. (eds.). Oxford University Press.
- Börger, L., Matthiopoulos, J., Holdo, R.M., Morales, J., Couzin, I., and McCauley, E. 2011. Migration quantified: constructing models and linking them with data. Chapter 8 in *Animal Migration: a Synthesis*. Milner-Gulland, E.J., Fryxell, J.M., and Sinclair, A.R.E. (eds.). Oxford University Press.
- Holt, R.D., Holdo, R.M., and van Veen, F.J. 2010. Theoretical perspectives on trophic cascades: current trends and future directions. Pp. 301-318 in *Trophic cascades: predators, prey, and the changing dynamics of nature*. Terborgh, J., and Estes, J.A. (eds.). Island Press.

### Journal Articles (in review)

- Abraham, A. *et al.* Sodium constraints on large-herbivore communities in Africa. *PNAS*, in revision.
- Higginbottom, T. *et al.* Understanding L-band SAR interactions in African woodlands and savannas: the role of stem size, density, and biomass. *Remote Sensing of Environment*, in review.
- Davies, R. *et al.* Fire, herbivory, and drought-tolerance differentiate three savanna tree functional syndromes across African savannas. *New Phytologist*, in review.

Judge, P., Brantley, S., Stuber, S., and Holdo, R.M. Effects of tree root exclusion on understory plants in pine woodlands: no evidence of facilitation during a wet year. *PloS One*, in review.

### Grants received (2010-present)

- UGA Global Research Collaboration Grant: Direct and indirect effects of tree canopies on seedling escape pathways in savannas. Role: co-PI (with J. Donaldson). \$10,000. 2023-2024.
- USDA NIFA: “US-UK Collab: Disentangling transport and trophic effects of animal movement on infectious disease.” Role: lead PI. \$1,975,846. 2021-2025.
- NSF DEB: “Collaborative Research: Rainfall variability and the axes of tree-grass niche differentiation.” Role: lead PI. \$365,991. 2019-2022.
- NSF BCS: “Spatiotemporal Dynamics of Woody Cover in a Savanna Landscape.” Role: co-PI (T. M. Anderson, PI). Holdo subcontract: \$95,652 (\$305,261 total). 2015-2020.
- UGA Global Research Collaboration Grant. Role: co-PI (with V. Ezenwa). \$4,000. 2017-2018.
- NSF DEB: “COLLABORATIVE RESEARCH: Tree recruitment limitation in African savannas: top-down versus bottom-up effects across a soil moisture gradient.” Role: PI. \$159,775. 2012-2016.

Andrew F. Mellon Foundation: "Growth and resprouting dynamics of savanna trees across resource gradients in Kruger National Park." Role: co-PI (Michelle C. Mack, PI). Holdo subcontract: \$68,611 of \$230,000 awarded. 2013-2017.

NSF EPSCoR: "The Missouri Transect: Climate, Plants, and Community." Role: co-I (John Walker, PI). Holdo lab portion: \$195,915. 2014-2016.

University of Missouri Research Council: Spatial heterogeneity in fire intensity in African savannas. Role: PI. \$6,100. 2013-15.

NSF DEB: REU supplement to COLLABORATIVE RESEARCH: Mechanisms of tree recruitment limitation across a savanna soil moisture availability gradient. Role: PI. \$7,000. 2013.

Andrew F. Mellon Foundation: "Linking disturbance and nutrient limitation in tropical savannas: tree-soil-microbial feedbacks in Kruger National Park." Role: co-PI (Michelle C. Mack, PI). Holdo subcontract: \$61,419 of \$300,000 awarded. 2010-2012.

### **Recognition for excellence in research**

Odum Chair (rotating), Odum School of Ecology, University of Georgia. 2016-2019.

College of Arts and Sciences Faculty Fellowship for Excellence, University of Missouri. 2014.

Provost Outstanding Junior Faculty Research and Creative Activity Awards, University of Missouri. 2014.

### **Invited seminars/lectures**

- Mollman, M., Holdo, R.M., Anderson, T.M. and Morrison, T. 2013. Using camera trap data to quantify herbivore community composition in a savanna ecosystem. Summer Undergraduate Research Forum, University of Missouri, July 2013.

Holdo, R.M. Depth partitioning of soil moisture in savannas: Walter revisited. Presented at Savanna Science Network Meeting, Skukuza, South Africa, March 2013.

**Arnold, S. G.** and Holdo, R.M. Grazing lawns in the South African landscape: a mechanistic approach. Grasslands in a Global Context Symposium, Kansas State University, Manhattan, KS, September 2011.

Roach, R., and Holdo, R.M. Using individual movement data to map population distributions: a simulation study. Mathematics and Life Sciences Symposium, University of Missouri, Columbia, MO, September 2011.

Holdo, R.M. and J. Timberlake. Rooting profiles along a Kalahari sand woodland catena. ESA Annual Meeting, Savannah, GA, August 2003.

Holdo, R.M. and J.P. Dudley. Lick use by elephants in relation to fecal sodium concentration and environmental mineral availability in a Kalahari sand habitat. ASM Annual Meeting, Seattle, WA, June 1999.

Iudica, C.A. and R.M. Holdo. Cranial morphometrics in the genus *Sturnira* (Chiroptera: Phyllostomatidae): a comparison of two techniques. ASM Annual Meeting, Seattle, WA, June 1999.

### **Other presentations**

Holdo, R.M. Woody cover transitions, alternative ecosystem states and fire in savannas. Theory Lunch, Odum School of Ecology, September 2024.

Holdo, R.M. and Donaldson, J.E. Persistence of fire-initiated grazing hotspots and implications for infectious disease. Theory Lunch, Odum School of Ecology, September 2023.

## **PUBLIC SERVICE**

### **K-12 educational activities**

Ecology module, Rock Bridge High School, Columbia, MO. Assisted with the development and implementation of a two-day field research activity for 170 10<sup>th</sup>-grade students. As part of this module, I wrote a simulation model to teach students about drought impacts in prairie ecosystems. April and October 2015.

## **PROFESSIONAL SERVICE**

### **Service to professional societies**

Poster judge, ABRCMS National Meeting, St. Louis, MO. 2011.

Buell/Braun judge, ESA annual meeting, Memphis, TN. 2006.

### **Ad hoc manuscript reviewer**

African Journal of Ecology (3), African Journal of Agricultural Research, African Journal of Wildlife Research, American Botany Teacher, American Journal of Botany, American Naturalist (6), Animal Conservation, Animal Migration, AoB Plants, Biogeochemistry, Biogeosciences (2), Biological Conservation (3), Biology Letters (2), Biotropica (3), book chapters (5), Communications Biology, Conservation Biology (2), Diversity and Distributions, Ecohydrology, Ecological Applications (2), Ecological Modeling (2), Ecological Monographs (5), Ecological Research, Ecología Austral, Ecology (10), Ecology Letters (4), Ecosphere (2), Ecosystems (5), Environmental and Experimental Botany, Forest Ecology and Management, Frontiers in Ecology and Evolution, Functional Ecology, Global Change Biology, Global Ecology and Biogeography, Global Ecology and Conservation, International Journal of Wildland Fire, Journal of Animal Ecology (7), Journal of Applied Ecology (2), Journal of Biogeography (5), Journal of Ecology (17), Journal of Mammalogy (2), Journal of Plant Ecology, Journal of Tropical Ecology (10), Journal of Vegetation Science (9), Journal of Zoology (1), Landscape Ecology, Methods in Ecology and Evolution, Movement Ecology, Natural Resources

Research, Nature Communications, Nature Ecology and Evolution, New Phytologist (8), Northeastern Naturalist, Oecologia (2), Oikos (3), Plant Ecology (3), Plant and Soil, Perspectives in Plant Ecology, Evolution and Systematics (2), Plant and Soil, PLoS Biology, PLoS One (7), PNAS (7), Rangeland Ecology and Management, Science (3), Science Advances, Scientific Reports (2), South African Journal of Botany, South African Journal of Wildlife Management, Southern Forests, Tropical Conservation Science, Water Resources Research, Wetlands.

### **Grant review panel member**

Population and Community Ecology panel, NSF. 2023.

Population and Community Ecology panel, NSF. 2021.

Biology Integration Institutes (BII) panel, NSF. 2020.

Pre-proposal panel, Population and Community Ecology, NSF. 2015.

Full proposal panel, Population and Community Ecology, NSF. 2015.

DDIG panel, Population and Community Ecology, NSF. Washington, DC. 2013.

### **Ad hoc grant reviewer**

Agence Nationale de la Recherche, France; Leverhulme Trust, UK (2); Lincoln Park Zoo Field Conservation Fund; NSF (12); National Geographic Society (5); National Research Foundation, South Africa; Natural Environment Research Council, UK, Royal Society (UK).

### **External evaluator**

Career evaluation for S. Archibald, NRF, South Africa, Nov 2023.

Career evaluation for E. Witkowski, NRF, South Africa, Oct 2021.

Tenure evaluation for Dr. Brandon Barton, Mississippi State University, Sep 2020.

Career evaluation for G. Hempson, NRF, South Africa, Aug 2017.

### **PhD examiner**

PhD dissertation external examiner for R. Scholtz, University of KwaZulu-Natal, May 2015.

PhD dissertation external examiner for G.S. Joseph, University of Cape Town, May 2012.

### **Service on departmental, college, or University committees**

*Service at University of Georgia (2016-present)*

#### Campus-wide

President's Advisory Committee. 2023-present.

Meigs Professorship Selection Committee. 2023-present.

Dean Search Committee. 2020 & 2022.

International Research Collaborations Working Group. 2020-2022.

Council of Academic Diversity. 2020-2022.

#### Odum School

Graduate Program Committee. 2022-present.

Faculty mentor to Assistant Professor Alex Strauss. 2020-present.

Strategic Planning Committee. 2018-2020.

DEI Committee. 2017-2022. Chair 2019-2022.

Search Committee, Data Literacy Lecturer position. 2018-2019.

Steering Committee. 2017-2018.

Executive Committee. 2017-2019.

Search committee, Organismal Biology. 2017-2018.

*Service at University of Missouri (2010-2016)*

Campus-wide

Provost's Outstanding Junior Faculty Research and Creative Activity Award Committee. 2015.

Faculty Responsibility Committee. 2014.

Search committee, stochastic modeler (Mizzou Advantage position). 2012-2013.

Poster judge, Life Sciences Poster Week, 2014.

Poster judge, Life Sciences Poster Week, 2013.

Poster judge, Life Sciences Poster Week, 2012.

Poster judge, Life Sciences Poster Week, 2011.

Active member, Complexity Modeling Initiative. 2011-2015.

Division of Biological Sciences

Chair, Tucker Prairie oversight committee. 2014-2016.

Divisional Council. 2012-2013.

Facilities and Common Equipment Subcommittee. 2012.

Search committee, Cell and Molecular Biology positions. 2011-2012.

EEB seminar series. Organizer. Fall 2011.

Search committee, Neuroscience Modeling position. 2010.
